

Update on The Wartime Canteen and Block G

Welcome to the quarterly update from Places Made on behalf of Bletchley Park Holdings (BPH), the owners of the Wartime Canteen and Block G.

This quarterly newsletter is designed to keep you updated on the two sites. Please feel free to share information with your neighbours. Anyone that would like adding to the distribution list should email emma@placesmade.com.

Block G

In 2021 we focussed on securing the site, and cleaning it up to eliminate anti-social behaviour.

We also successfully trialled using the site as a filming location for a ten-part series rooted in the DC comic universe. The site continues to be marketed for other such opportunities, and local residents will be kept updated should any more filming be planned.

The owners have a strong track record of re-purposing historical buildings into commercial use and are currently in the early stages of exploring possibilities for developing the site, working with a team of experienced professionals.

The Wartime Canteen

Again, the priority in 2021 was to secure and clear the site to reduce incidents of anti-social behaviour. A new perimeter fence is in place, along with a new alarm system linked to a local security firm.

Christmas Gift

Bletchley Park Holdings were pleased to support Bletchley Youth Group at Christmas to fund an upcoming trip for young people
