INSTITUTE OF
TECHNOLOGY

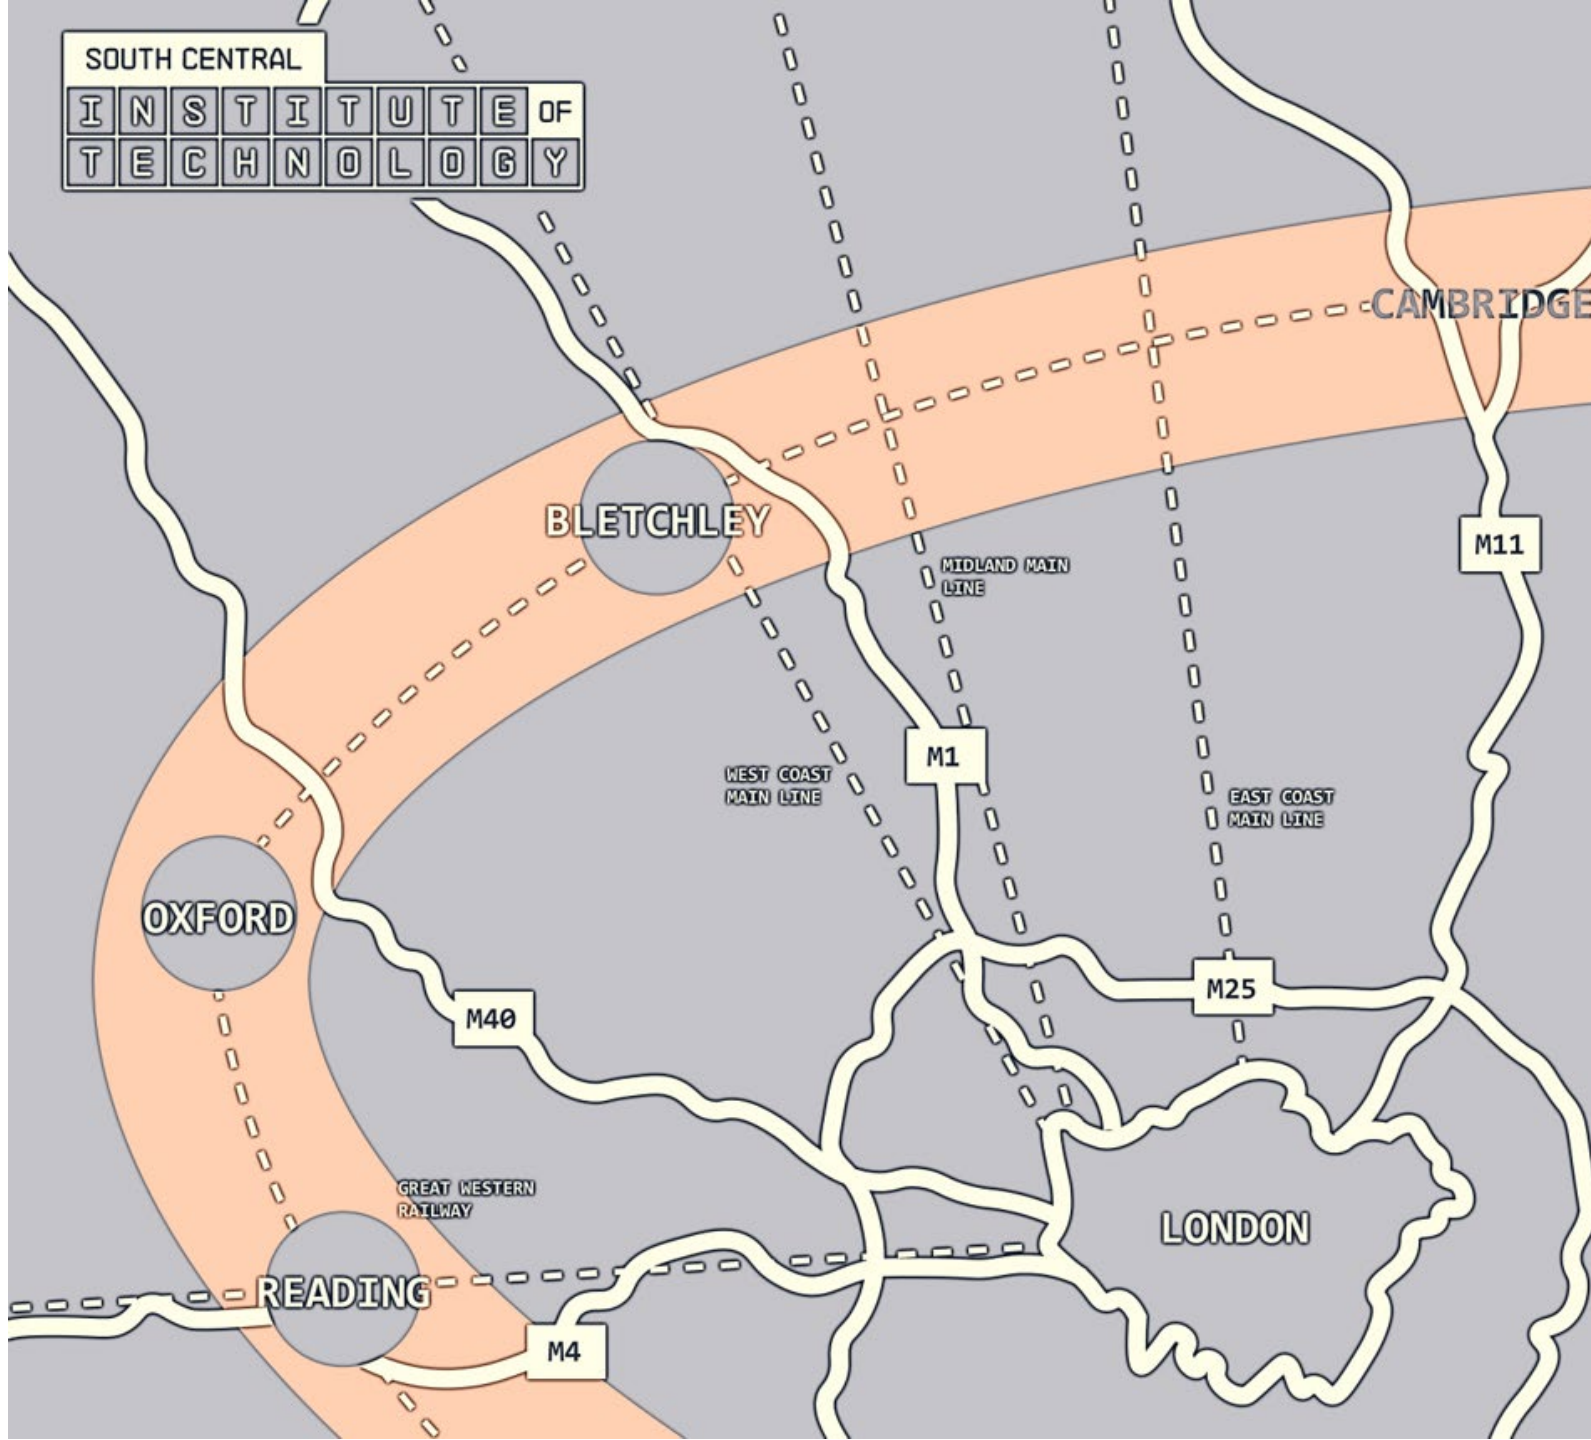

21 Institutes of Technology

What are IOTs?

The Institutes of Technology are made up of more than 40 FE providers, around 60 leading employers and 18 universities, and backed by £170 million of government investment to fund industry-standard facilities and equipment.

The first wave of 12 Institutes of Technology were announced by the government in 2019. An additional 9 IOTs joined in the second wave and are now in development.

Campus locations.

There are three partner campuses, situated in Bletchley, Oxford and Reading, providing higher level technical qualifications, professional training and short courses.

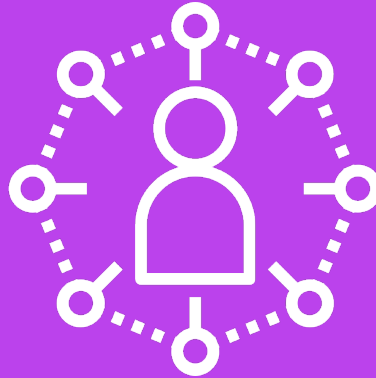

- ❑ Reading opened in September 2021
- ❑ Blackbird Leys Campus in Oxford opened November 2022
- ❑ Bletchley Campus launches in Summer 2023.

Values

+ Include

We create opportunities for all, raise aspirations, be diverse in our thinking and offer incredible support to our community

+ Innovate

We innovate - our IoT will forever be in beta mode as we seek to continuously refine and adapt our ways of working to respond to new technologies and learning innovations

+ Connect

We always seek to collaborate and form partnerships, developing a community among our stakeholders which will create opportunities and lead to a thriving alumni network

+ Challenge

We have boundless ambition in everything we do, solving real world problems and using non-traditional methods
